

**OS****ID****BOLUS**

# BOLUS C20 and C65

## Permanent EID of cattle, sheep and goat

### Measures C20

Length: 56 mm  
 Diameter: 11,7 mm  
 Weight: 20 grams

### Measures C65

Length: 69 mm  
 Diameter: 19 mm  
 Weight: 65 grams

### Transponder

32 mm glass encapsulated HDX  
 134,2 kHz or  
 34 mm glass encapsulated FDX-B  
 134,2 kHz glass transponders.  
 compliant with ISO 11784 / 11785

### Ceramics

Bending strength: min. 250 MPa  
 Compressing strength: 3000 MPa  
 Surface: max 1,6 Ra

Tested and certified for safe use in ruminant animals according to EU regulations.

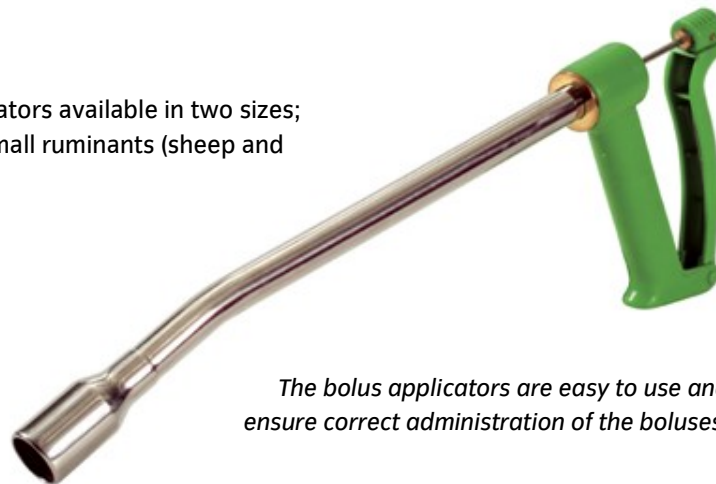

The OS ID Bolus C20 and C65 are rumen pellets that enables tamper proof electronic lifetime traceability of mature ruminant animals.

Several millions in use proving retention and reliability. These boluses combine superior retention with safe recovery in the slaughterhouse,

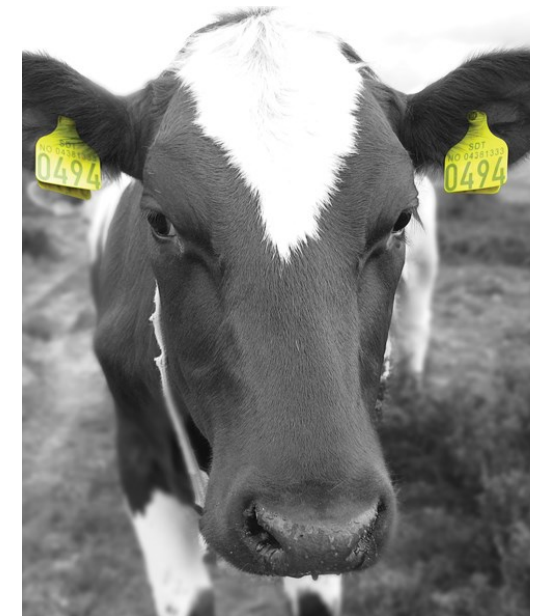

preventing any risk to the food chain. A RFID glass transponder is capsulated by high quality ceramic material and closed by a unique bolus plug.

**Bolus C65****Bolus C20**

Bolus applicators available in two sizes; cattle and small ruminants (sheep and goats)

*The bolus applicators are easy to use and ensure correct administration of the boluses.*

OS ID as  
 N - 2550 Os, Norway
